

Virtual excursion August 24

■ Course number 1 9:00-10:00 JST (1:00-2:00 WEST, 19:00-20:00 CDT)

Heritage of Kobe and Tajima,
the closed breeding from womb
to chopsticks strategy

Original tour by ICoMST2022

Tajima is one of Japan's leading breeds of beef cattle. The breed has been reared with the deep love of agricultural producers and closed breeding techniques. We would like to introduce you that the charm of Tajima cattle, which are certified as an element of Japanese agricultural heritage, and Kobe beef, from a special location you have never been seen before.

This is the original tour of ICoMST 2022 by Tajima cattle researcher.
Including real time Q&A session via the chat.
